**Indiana**
STATE BUDGET AGENCY

Ensuring that Indiana's priorities are funded today <u>and</u> tomorrow.

The eCivis Update
Special Edition: The PeopleSoft-eCivis Connection

One of the unique benefits of eCivis is its ability to integrate with PeopleSoft Financials. State Budget Agency has written 7 PeopleSoft queries that pull 7 files from PeopleSoft <u>every</u> <u>morning</u>, Monday through Friday. These daily files are uploaded into eCivis.

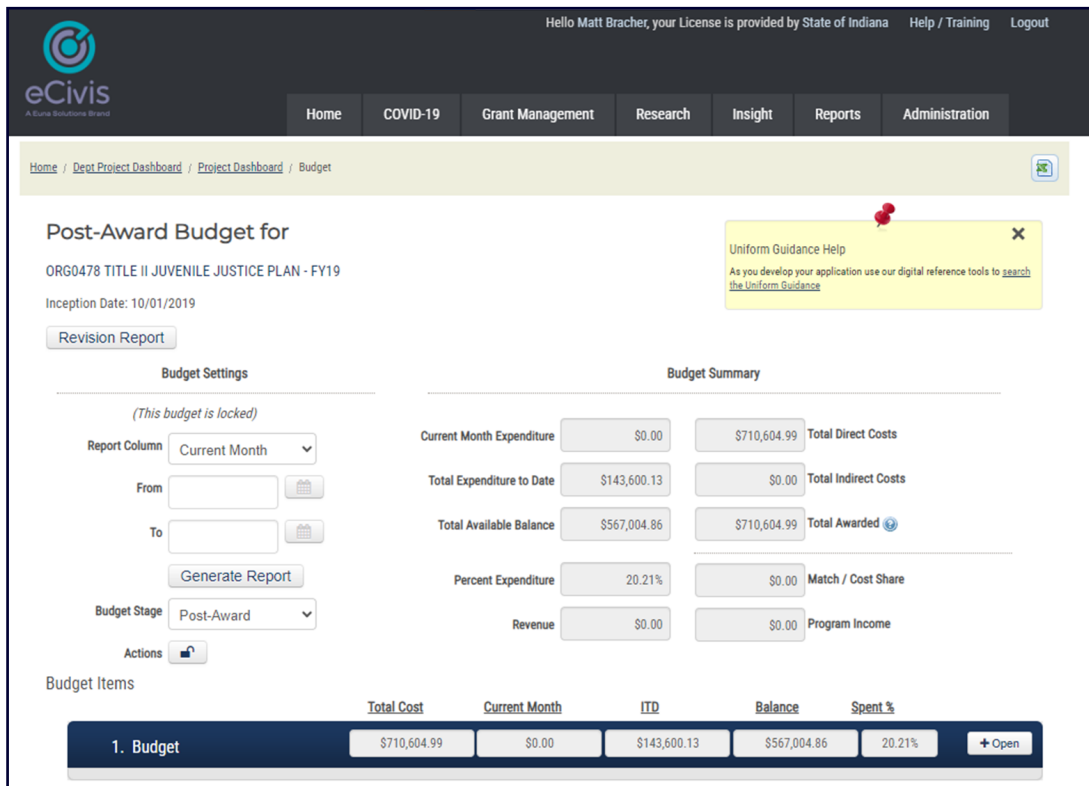

This PeopleSoft-eCivis integration provides state agencies with the ability to more effectively track how grant funds are used and monitor subrecipient activity...and it all happens without any action by state agency staff.

For example, expenditures data from PeopleSoft can be found in the "Budgets" tab on the Project Dashboard.

Agency program staff can track expenses against their grant awards.
