AI-Powered Platform Vendor Requirements

Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

AI-Powered Platform Grant Vendor Requirements

School corporations applying for the AI-Powered Platform Pilot Grant must contract with a vendor that meets all of the following criteria:

- Commits to the capacity and capability to provide high quality training to participating teachers across multiple modalities.
 - Training must consider thoughtful integration of the platform within blended and/or virtual learning models.
 - Training must include onboarding support, platform training (both technical and pedagogical), and periodic check-ins on a schedule agreed upon between the vendor and school.
 - Training must include guidance to support teachers in providing child safety instructions to students and parents.
- Provides timely technology support.
 - A helpdesk is available during standard school business hours and is staffed to respond as soon as possible.
 - Assists schools in account management and creation.
 - Assists schools in technical assistance/troubleshooting.
- Tracks student usage (in minutes) and mastery data (both formative and summative assessments).
- Is a safe platform for students and teachers.
 - Considers the age of the participating students. The terms of service are aligned to the age of users.
 - CIPA, COPPA, and FERPA compliant
 - accessible for all learners. |
 - Child Safety
 - Has assurances or details that highlight safety practices
 - Has an escalation protocol

Teacher Survey Data

TEACHER FEEDBACK SURVEY

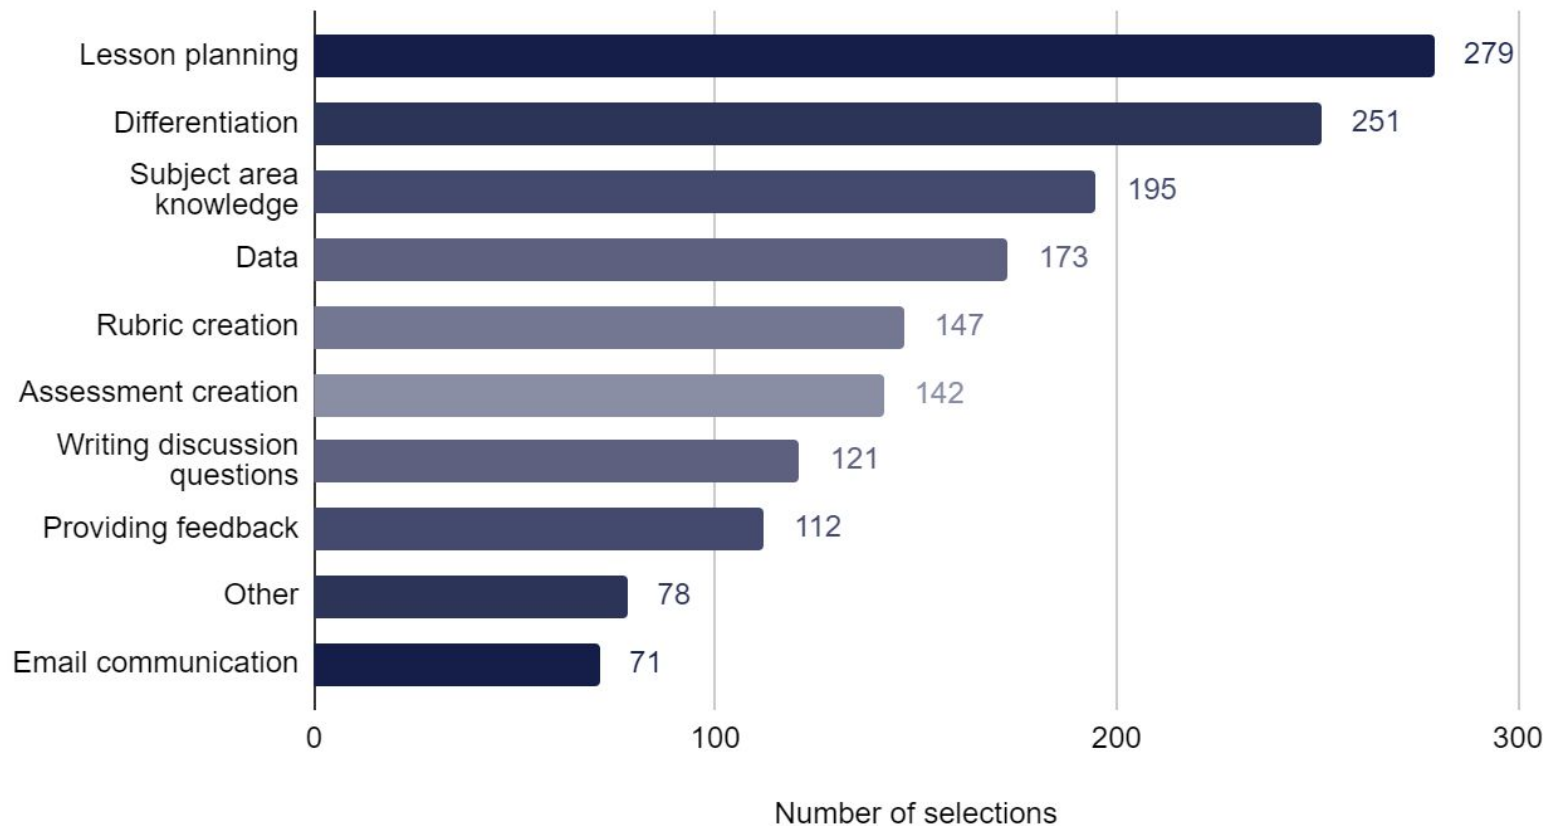

Open to all teachers part of the AI pilot grant

Included both closed and open-ended questions

625 survey responses were received

Types of Utilized Teacher Tasks

53% of teachers rated the overall impact of the AI platform on their **students' learning** as positive or very positive.

53% of teachers rated the overall impact of the AI platform on their **teaching practice** as positive or very positive.

IMPACT ON **TEACHING PRACTICES**

Top Open-Ended Survey Responses

1

Saves Time

2

Content & Idea Generation

3

Instruction & Differentiation Help

4

Data & Assessment

5

Communication

6

Extra Practice for Students

IMPACT ON **STUDENTS**

Top Open-Ended Survey Responses

1 Tutoring, Guidance, & Feedback

2 Student Buy-In

3 Extra Support & Practice

4 Improvement

5 Independence & Confidence

6 Personalized Learning

PLATFORM ASPECTS

TEACHERS REPORTED THESE WERE THE FEATURES THEY LIKED MOST FOR **STUDENT USE**:

Tutor

Platform tutor that guided students through a topic, problem, or question rather than giving the answer.

Feedback

Immediate feedback and question assistance.

Personalization

Students could get personalized information and support at their own pace and level.

CHALLENGES

Based on Teacher Feedback Survey Responses

1

User Experience Design

2

Speech Recognition & Microphone Issues

3

Content for All Subject Areas

Pilot School Visits

IMPACT ON STUDENT LEARNING

**New Castle Community
School Corporation**

**New Castle High School
Dual Credit English
Grade 12**

IMPACT ON STUDENT LEARNING

Perry Township Schools

Grades 4-6 (targeted)

IMPACT ON **TEACHING PRACTICES**

**Monroe Central
School Corporation**

**Monroe Central Jr./Sr. High
School**

Geometry/Algebra

Grades 9-10

The screenshot shows a digital learning interface for solving a system of equations. The main content area displays the system: $-4x + 2y = 8$ and $2x - 2y = -4$. Below the equations, four steps are provided: Step #1: Analyze terms and coefficients; Step #2: Add equations to eliminate a variable, resulting in $2x = 4$; Step #3: Solve the single-variable equation, resulting in $x = 2$; Step #4: Substitute $x = 2$ into one of the original equations to find $y = 4$. A 'Check' button is visible at the bottom right of the solution area. On the right side of the interface, there are three interactive options: 'Step-by-step guide' (checked), 'Watch video', and 'Skip question'. A small video window in the bottom right corner shows a woman speaking.
