The Town of Battle Ground is excited to announce the Trails Master Plan has begun and is seeking community input. Your feedback is incredibly valuable and will provide the framework for developing a trail network that reflects the needs and wants of residents and visitors of all ages and abilities.

Background: The town received a grant from the Indiana Department of Health to develop a Trails Master Plan for the town and surrounding area. The master plan will provide a roadmap to the development of a trail network within the town and to connect us to current and future regional trail systems. This is the beginning of the study process that will take place over the course of this year.
